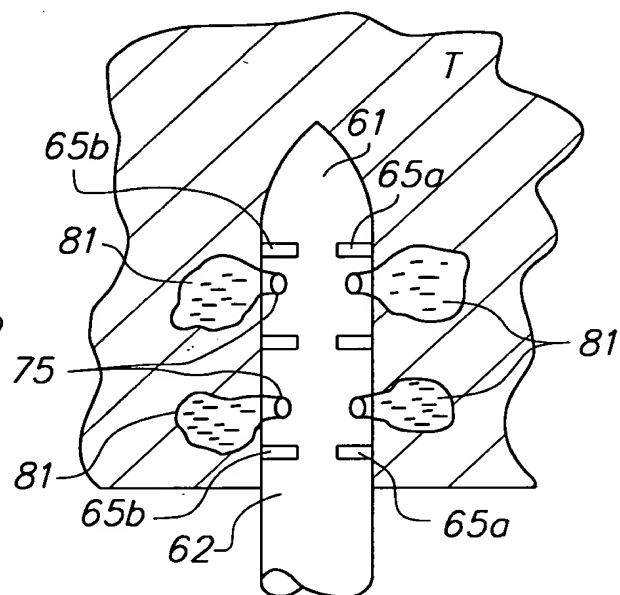

FIG. 6

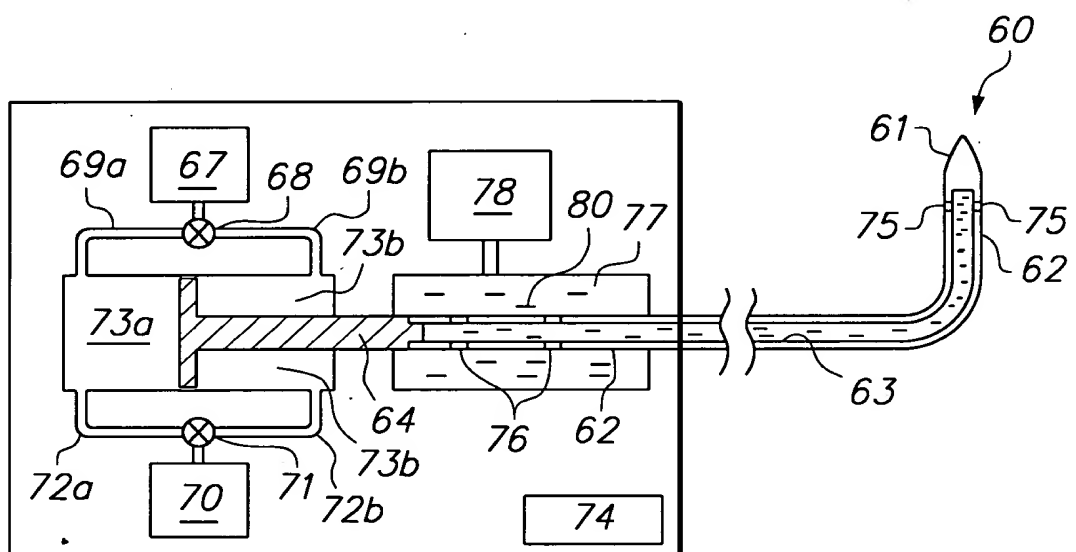

FIG. 5

A line drawing of a human heart. A catheter, labeled 203, is inserted into the right ventricle, which is shaded with diagonal lines. The catheter has a proximal end with a connector (202) and a distal end (22). A dashed line indicates the path of the catheter from the proximal end to the distal end. The aorta is labeled 201, and the right ventricle is labeled 206. The entire assembly is labeled 205.
